IN YOUR GARDEN

New season's fruit trees and Roses start to arrive in store this month so it's a great time to prepare the garden and head into Palmers to see the new seasons range.

Plant new fruit trees; Citrus, Apples, Pears, Plums, Peaches and Nectarines.

Edible Garden

Now is the time to plant Strawberries - well established plants will fruit earlier and for longer this spring and summer. Allow for 5 plants per person to ensure there is enough delicious fruit for everyone at harvest time.

Garlic and Shallot bulbs are in store now and can be planted until late July.

Sow seeds of Spinach, Silverbeet, Peas, Onions, Lettuce, and in warmer climates; Broad Beans.

Spray deciduous fruit trees with Free Flo Copper protect from pests and diseases.

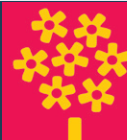

Asparagus crowns are in store now. Plant in free draining soil.

Plant seedlings of Cabbage, Cauliflower, Broccoli, winter Lettuce, Spinach and Silverbeet.

We've been helping kiwi's grow great gardens since our humble beginnings in 1912. Still proudly New Zealand owned by locals in your community, Palmers is the place to be for all things gardening.

Palmer's

June

IN YOUR GARDEN

It's a great time to plant Daphne, Camellias and Rhododendrons to add welcome colour to the garden in winter and early spring.

For cheerful winter colour, plant seedlings of Alyssum, Forget-Me-Not, Pansies, Viola, Polyanthus, Primula, Poppy, Sweetpea, Cyclamen, Hollyhock, Lobelia, Sweet William, Anemone, Candytuft and Bellis Daisy.

To ensure beautiful blooms come spring protect by spraying with Free Flo Copper, or the easy to use Yates Rose Gun. These sprays guard against scale, mites, aphids, and fungus diseases.

New season's Roses are in store now. Get your favourite classic varieties or choose from a range of new and exciting releases.

Sow seeds of Lobelia, Calendula, Sweet William, Dianthus, Alyssum and Sweetpeas. In warmer areas sow Delphinium, Larkspur, Stock, Nemesia, Carnation, Canterbury Bells and Gypsophila.

Maintain

Prune out any thin and spindly growth on your Hydrangeas. Cut back strong shoots to 2-3 buds from the base.

Ensure young trees and fragile plants are firmly staked and tied.

Now is the perfect time to prune trees that have finished fruiting. Cut stems back to a healthy growing bud and seal the cuts on larger stems with Pruning Paste to protect against disease.

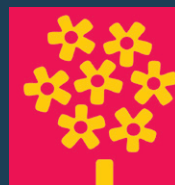

Keep your secateurs and loppers clean with white spirits, this will prevent the transfer of any diseases. Keep cutting tools sharp for neater cuts and to prevent any diseases growing.

All our plants are of the highest quality, but if something fails to grow in your garden, we'll simply replace it for you – that's our Palmers Promise.
